Subject Humpback Whale Sanctuary Management Plan

Aloha,

In regards to the Humpback Whale Sanctuary Management Plan, I would like to respectfully ask that you do not approve the current proposal under review, which could lead to the limitation and or/cessation of ocean activities that many of our residents participate in. While I support the protection and preservation of our endangered marine species, it is my position that any enlargement of the scope of the sanctuary's "marine resources", should provide Kauai and Niihau residents protections from "prevention of participation" in ocean related activities. Thank you.

Sincerely,

Tim Saunders
